

Count of Assessments With RSF Secondary in Bridges by Incident DO  
With Intake Approval Date Less Than 2/1/2019

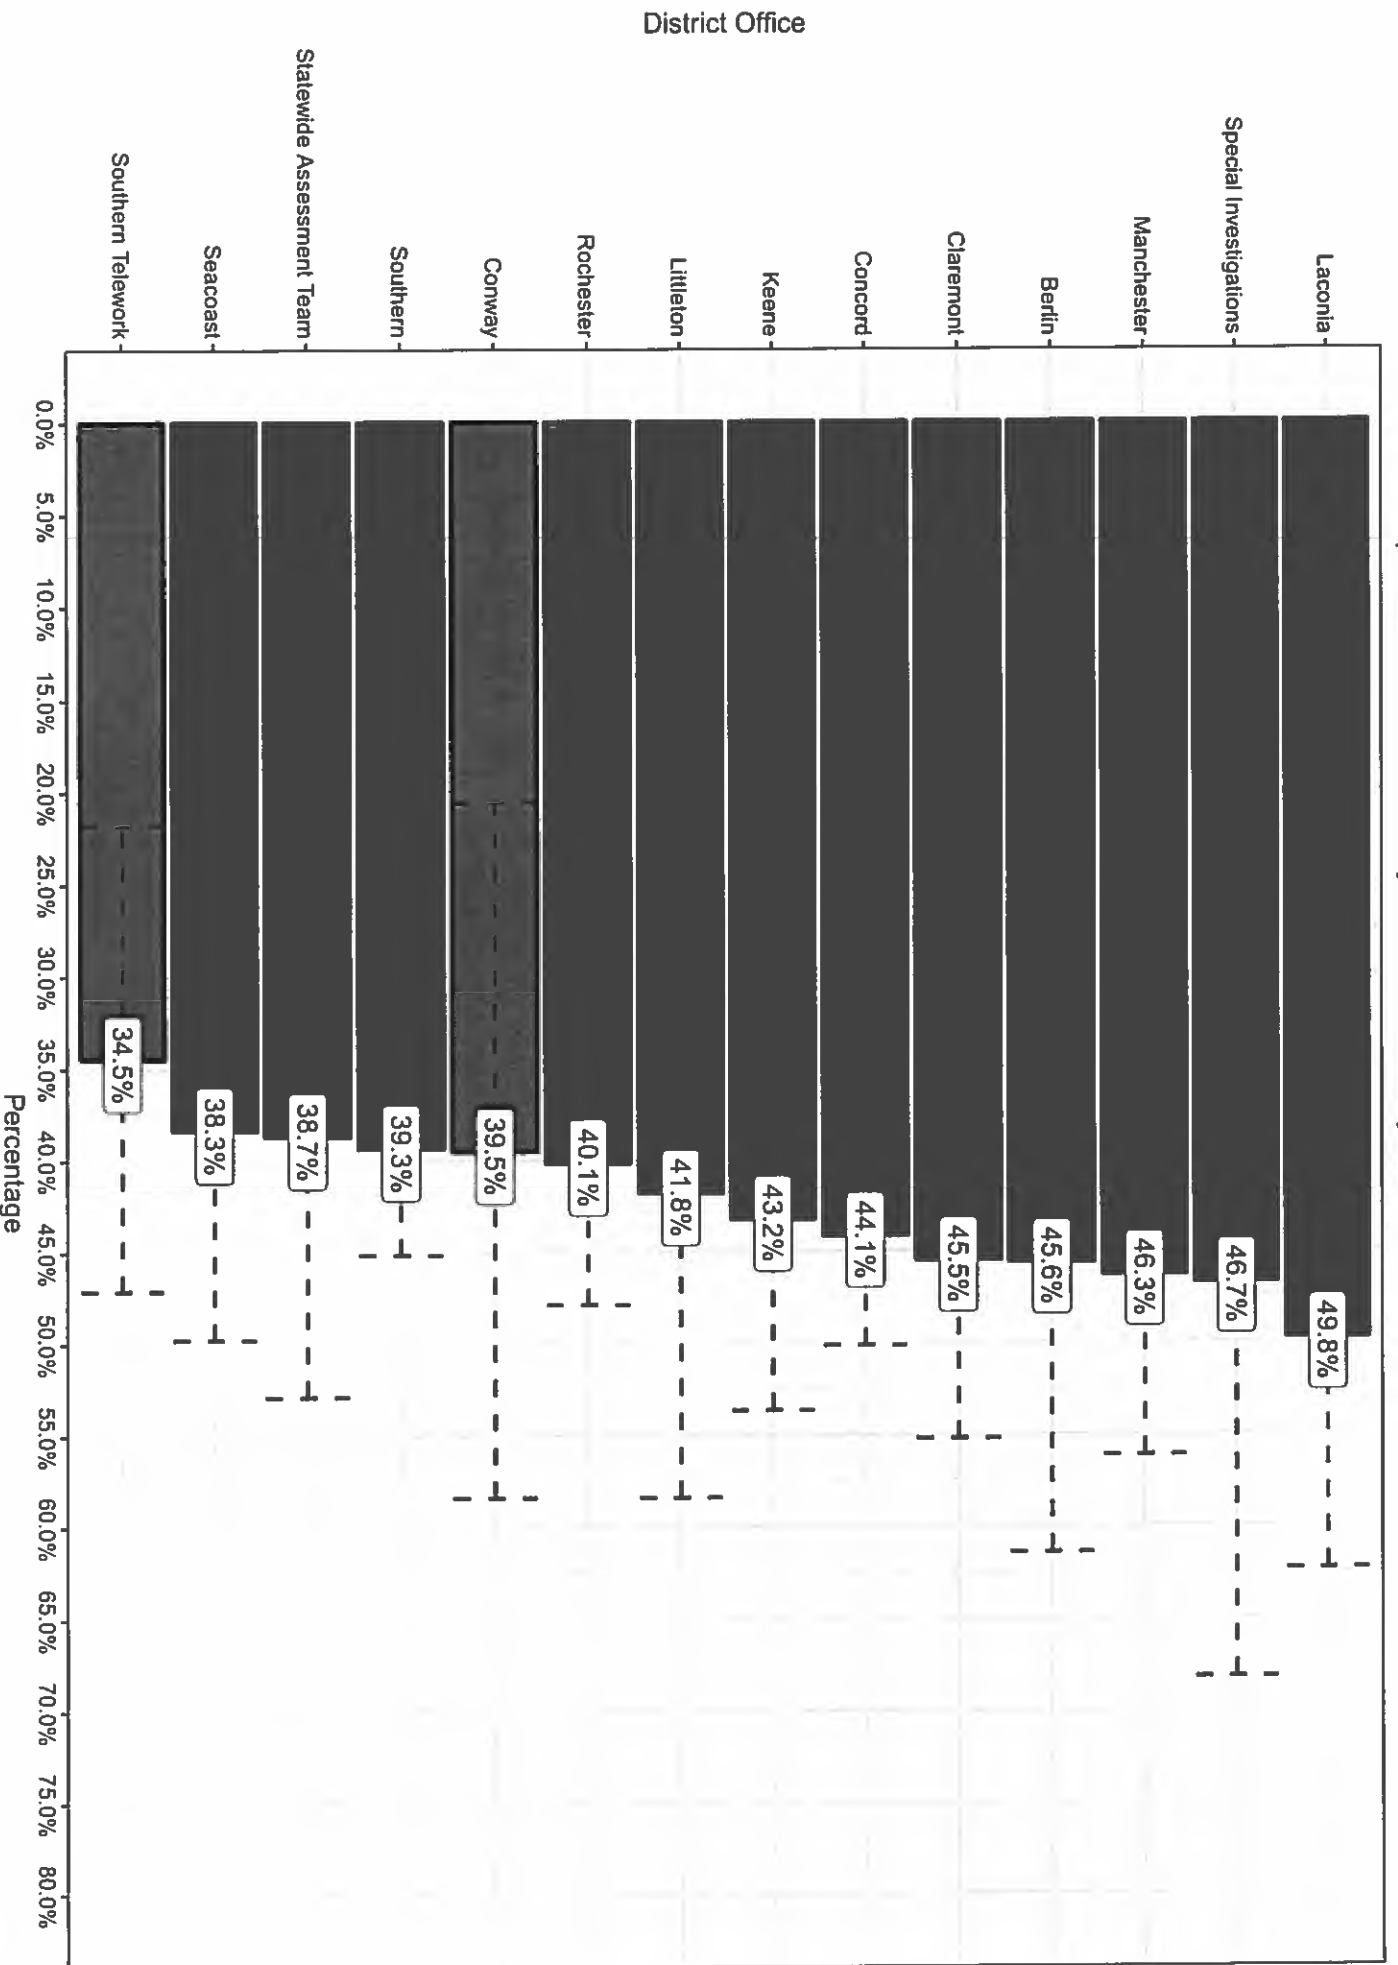

DO Trends For Total Assessments and RSF Applicable Assessments  
May/2018 – Jan/2019

Metric  RSF Applicable Assessments  Total Assessments

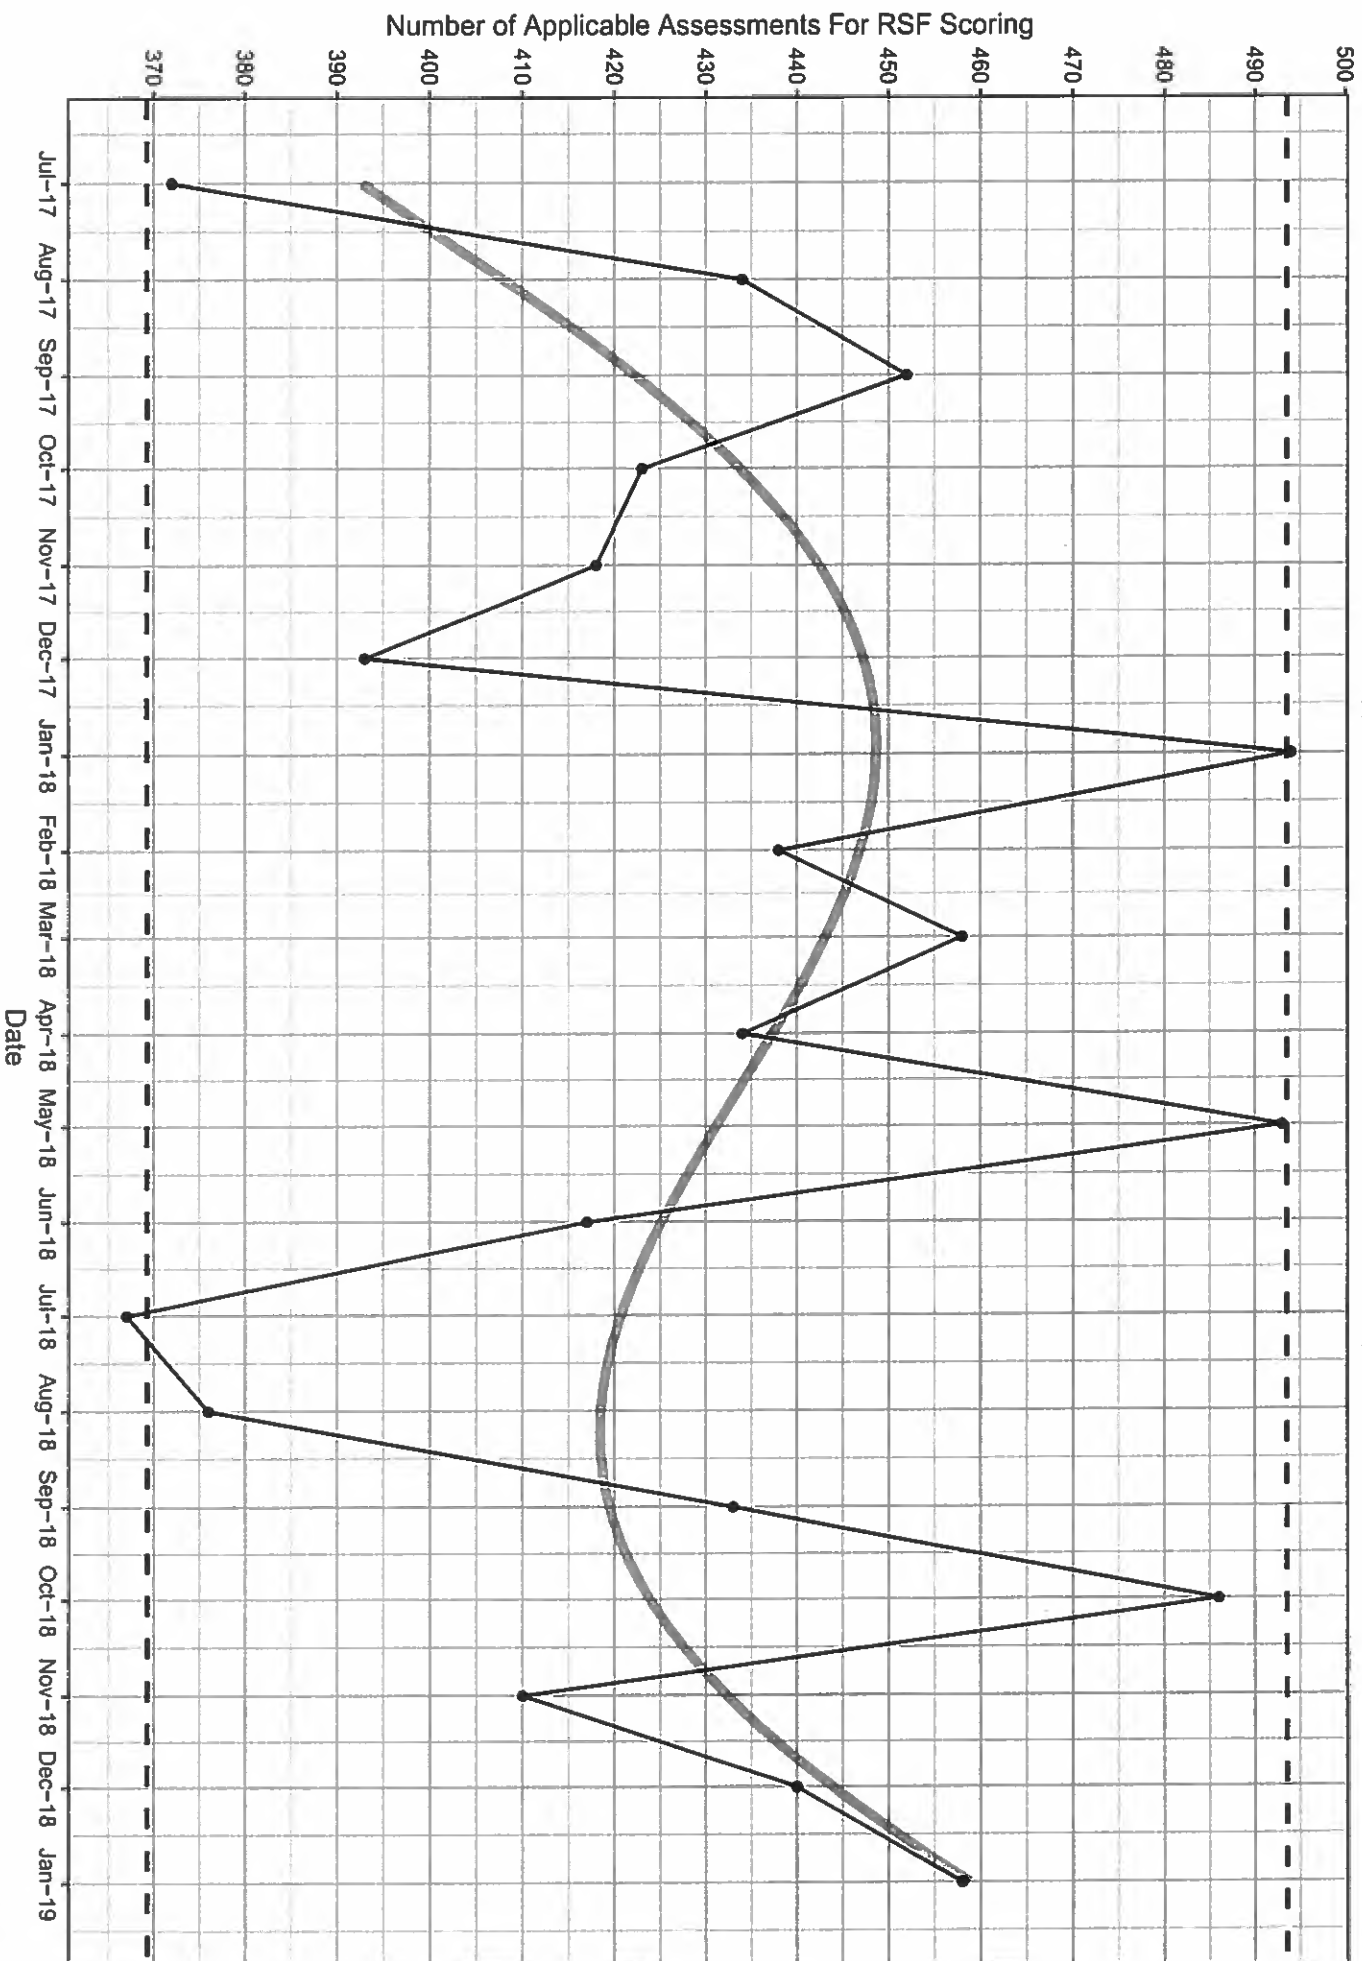

Month

Mean Average Percent of Accepted Referrals Applicable For RSF out of Total by District Office Per Month  
 Data From Accepted Referrals Between July 1st, 2017 – January 17th, 2019

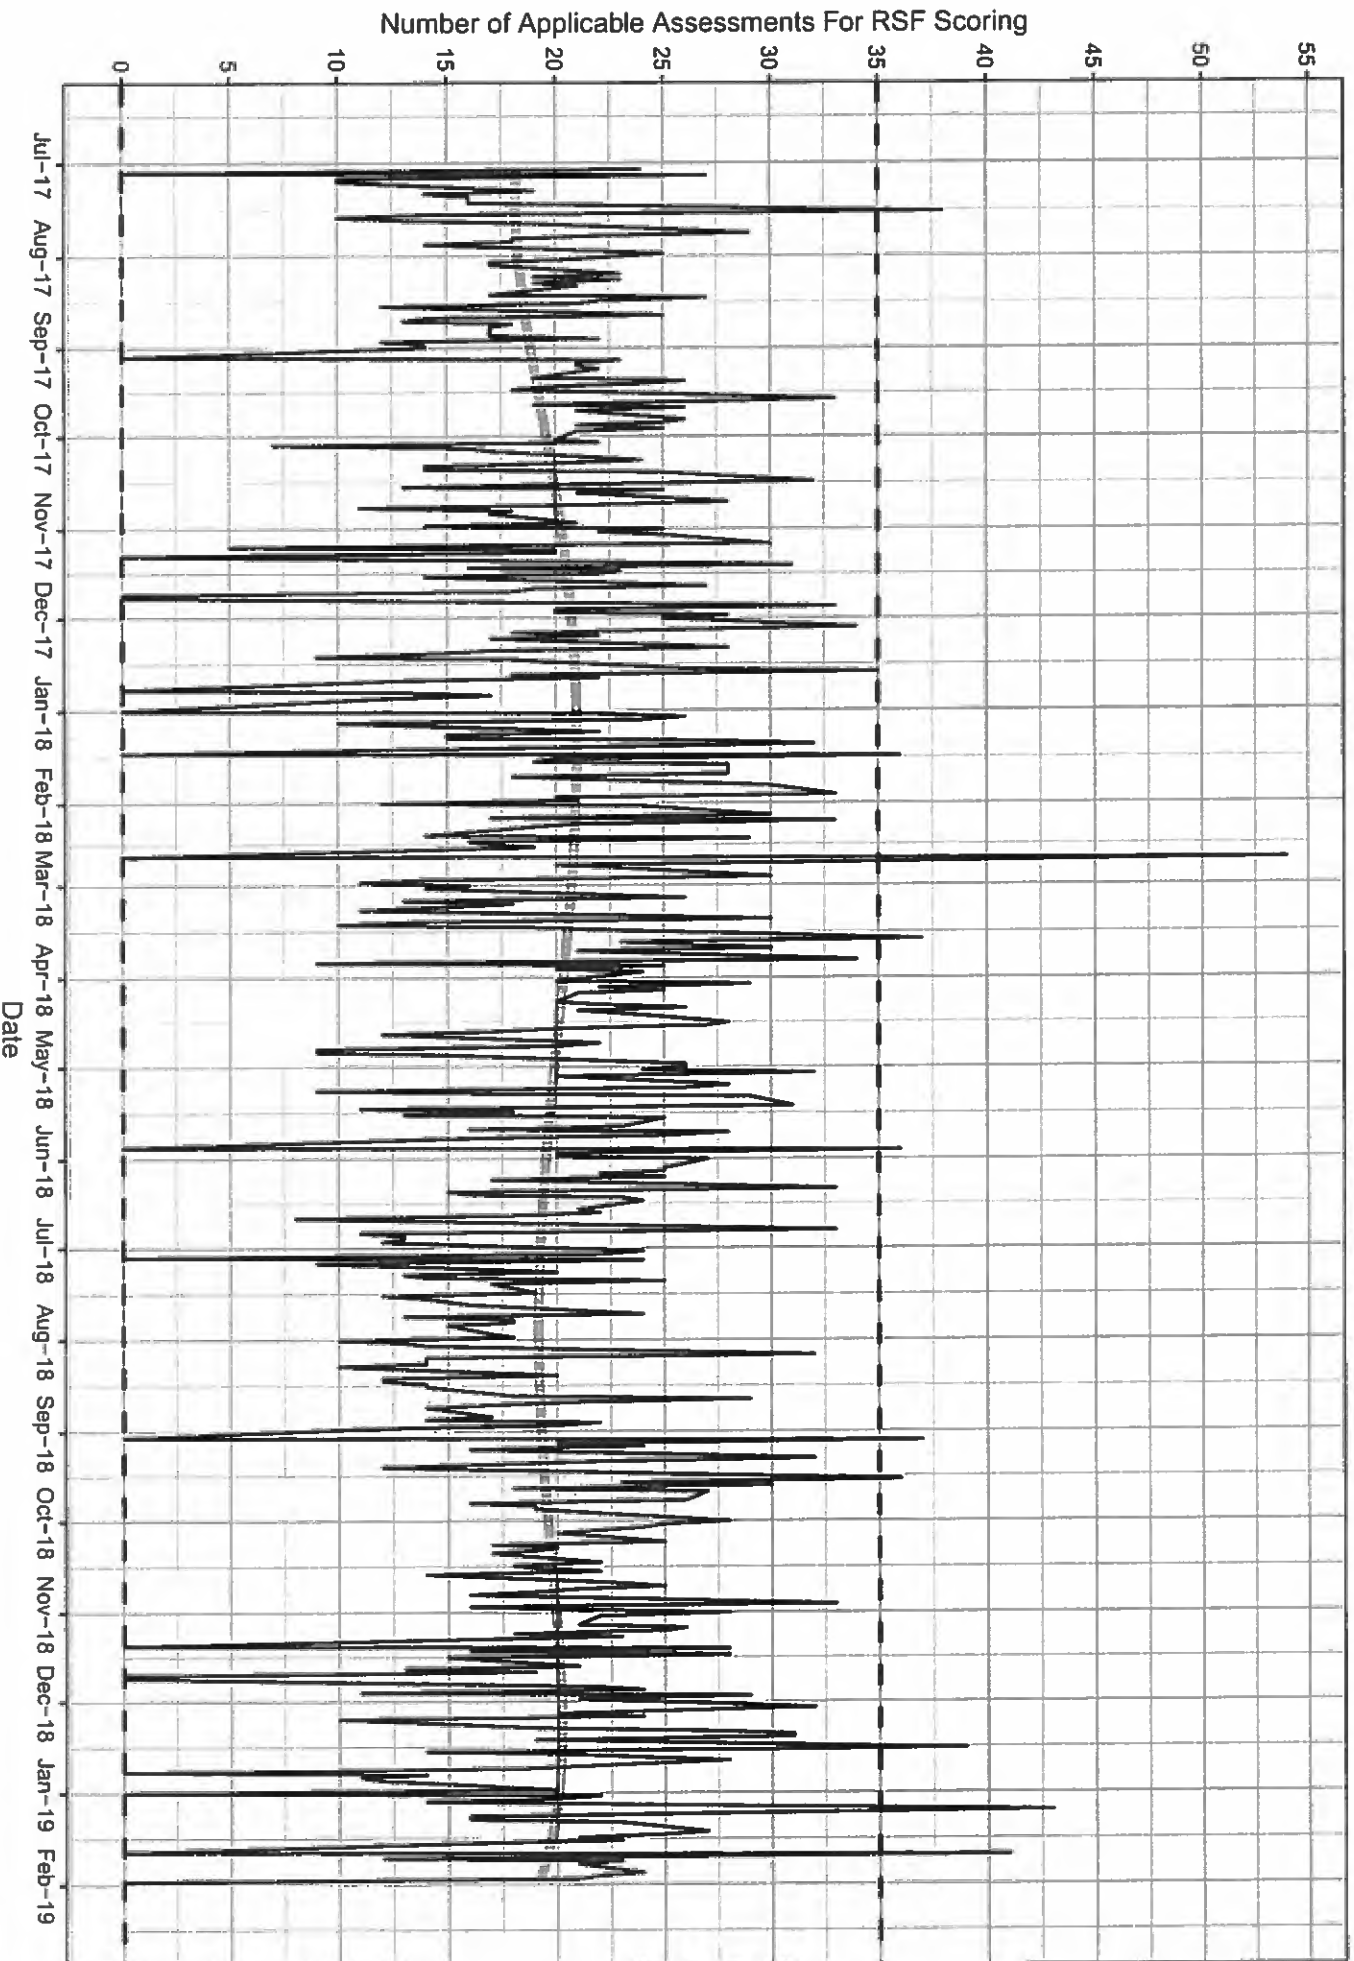

# Statewide Assessments Applicable For Scoring in RSF per Month July 1st, 2017 – January 31st, 2019

95% of the time there are between 369 and 494 applicable assessments for RSF scoring each weekday with a mean average of 431 per month.

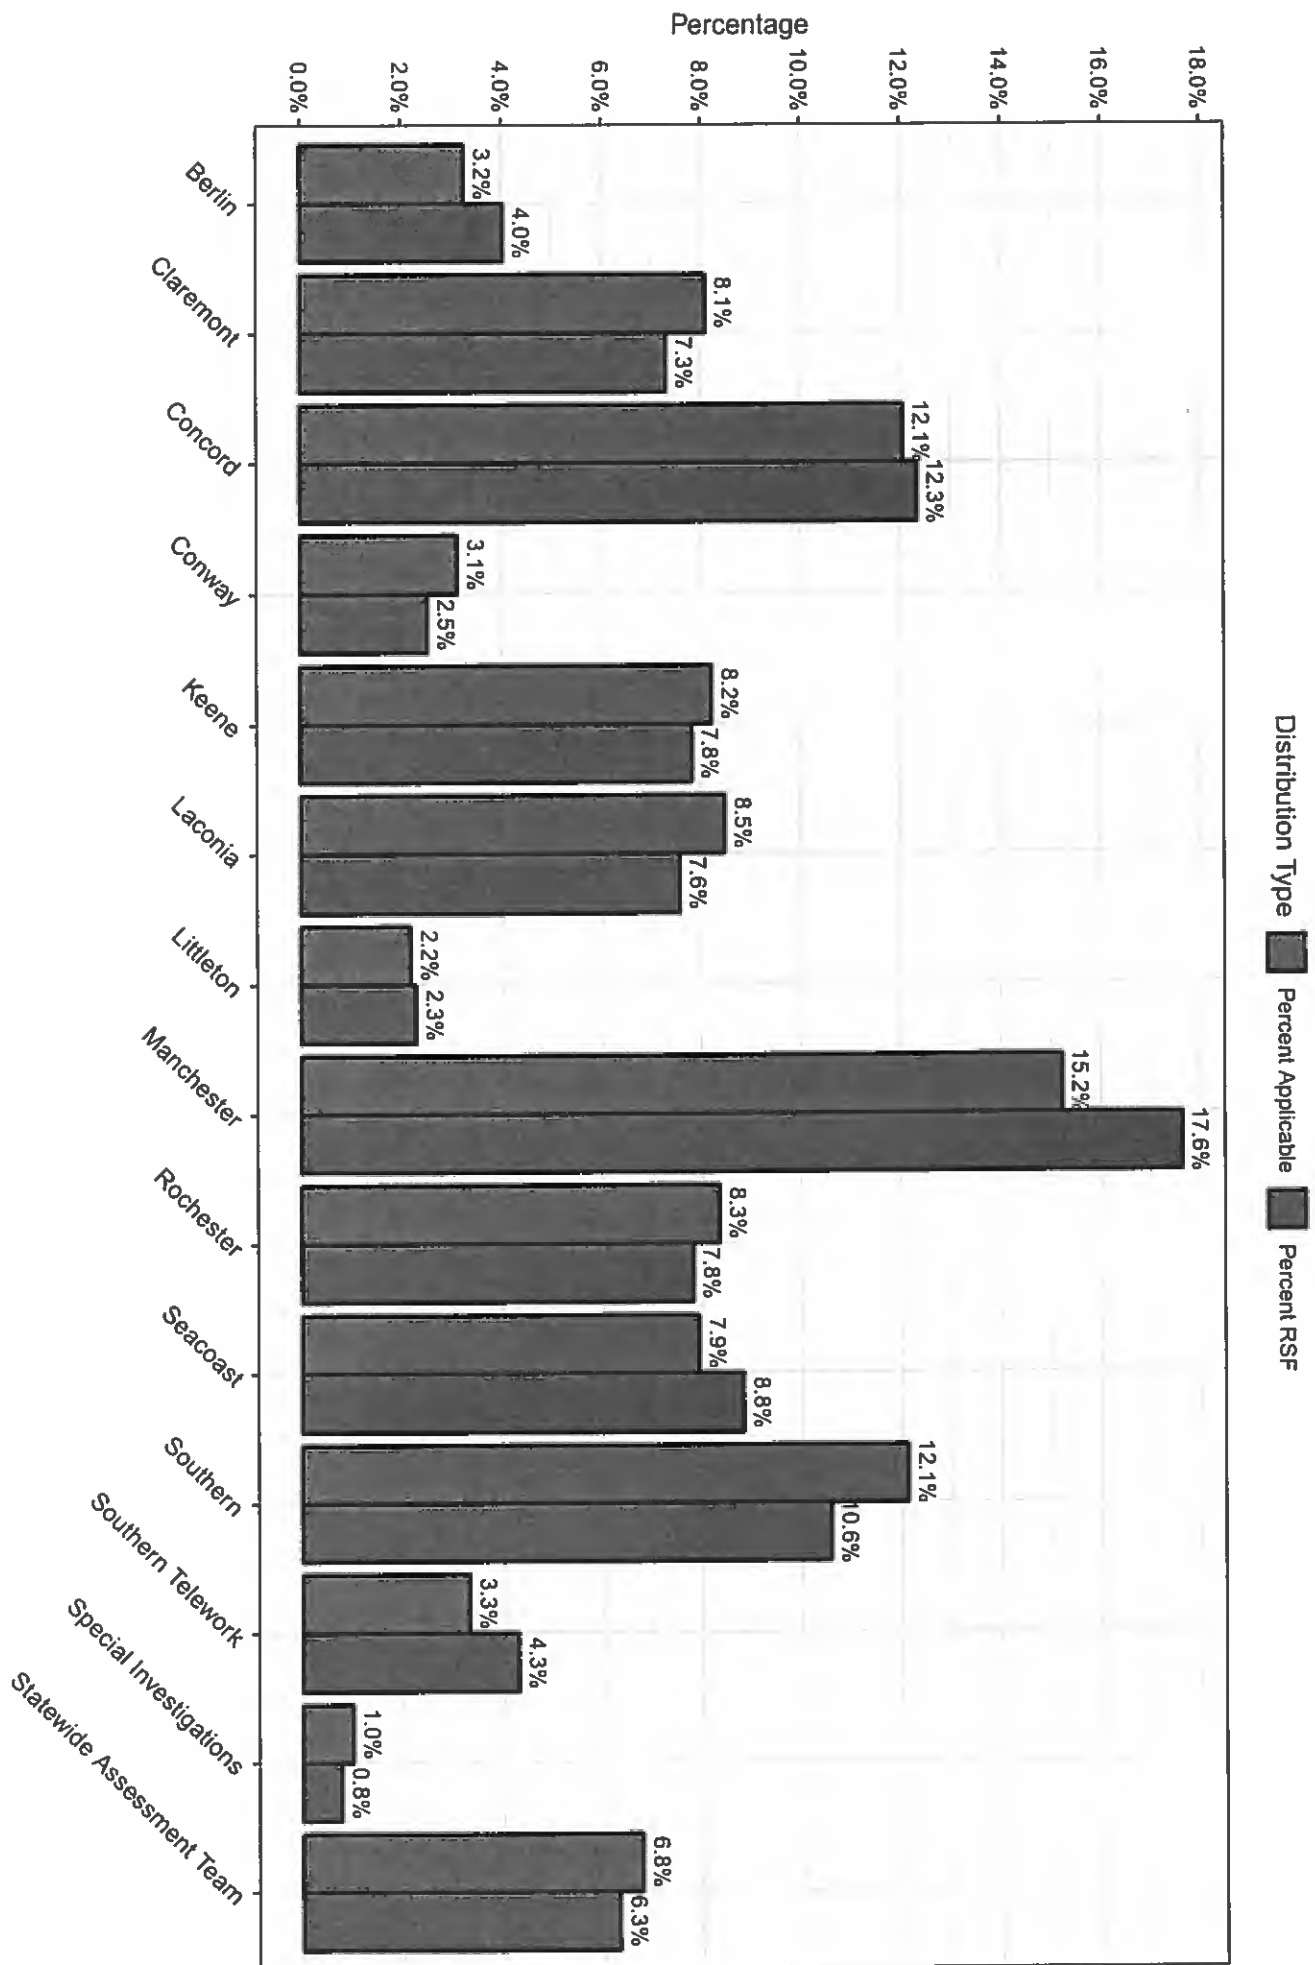

Statewide Assessments Applicable For Scoring in RSF per Weekday  
July 1st. 2017 – January 31st. 2019

95% of the time there are between 0 and 35 applicable assessments for RSF scoring each weekday with a mean average of 20 per day.

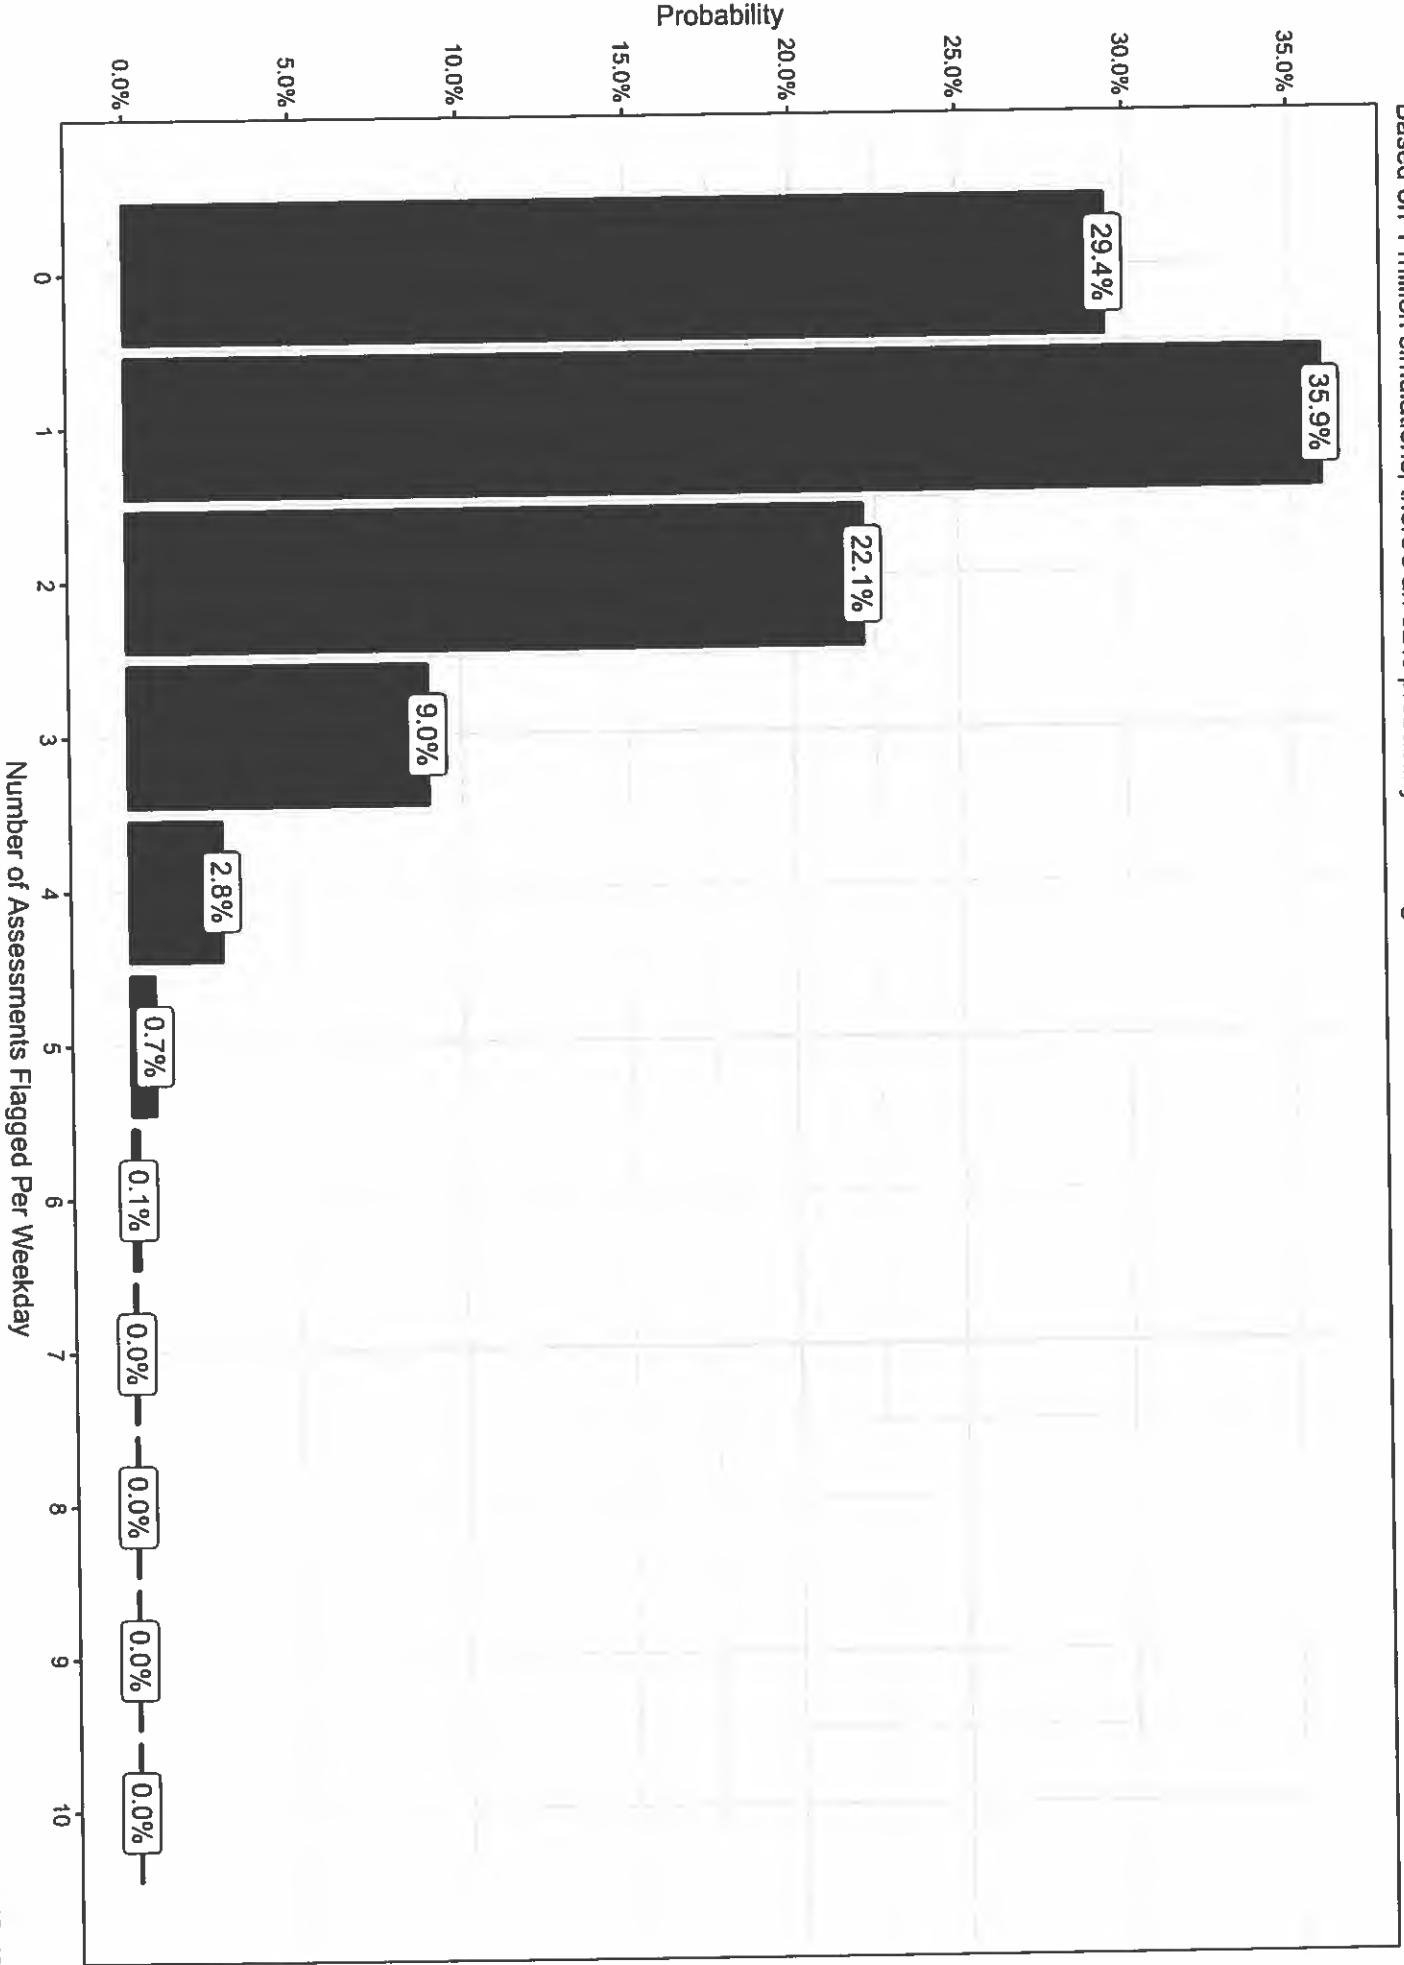

Comparing the Proportion of Applicable Accepted Referrals vs. the Proportion from a RSF Sample With Scores >=70%  
 The distributions align fairly well between what is applicable for scoring and what is scored as high risk in RSF.  
 Percent Applicable n = 8196 | Percent RSF n = 397

Theoretical Estimated Number of New Assessments Flagged by RSF per Weekday, Statewide

Based on 1 million simulations, there's an 82% probability of having at least two new assessments being flagged per day.

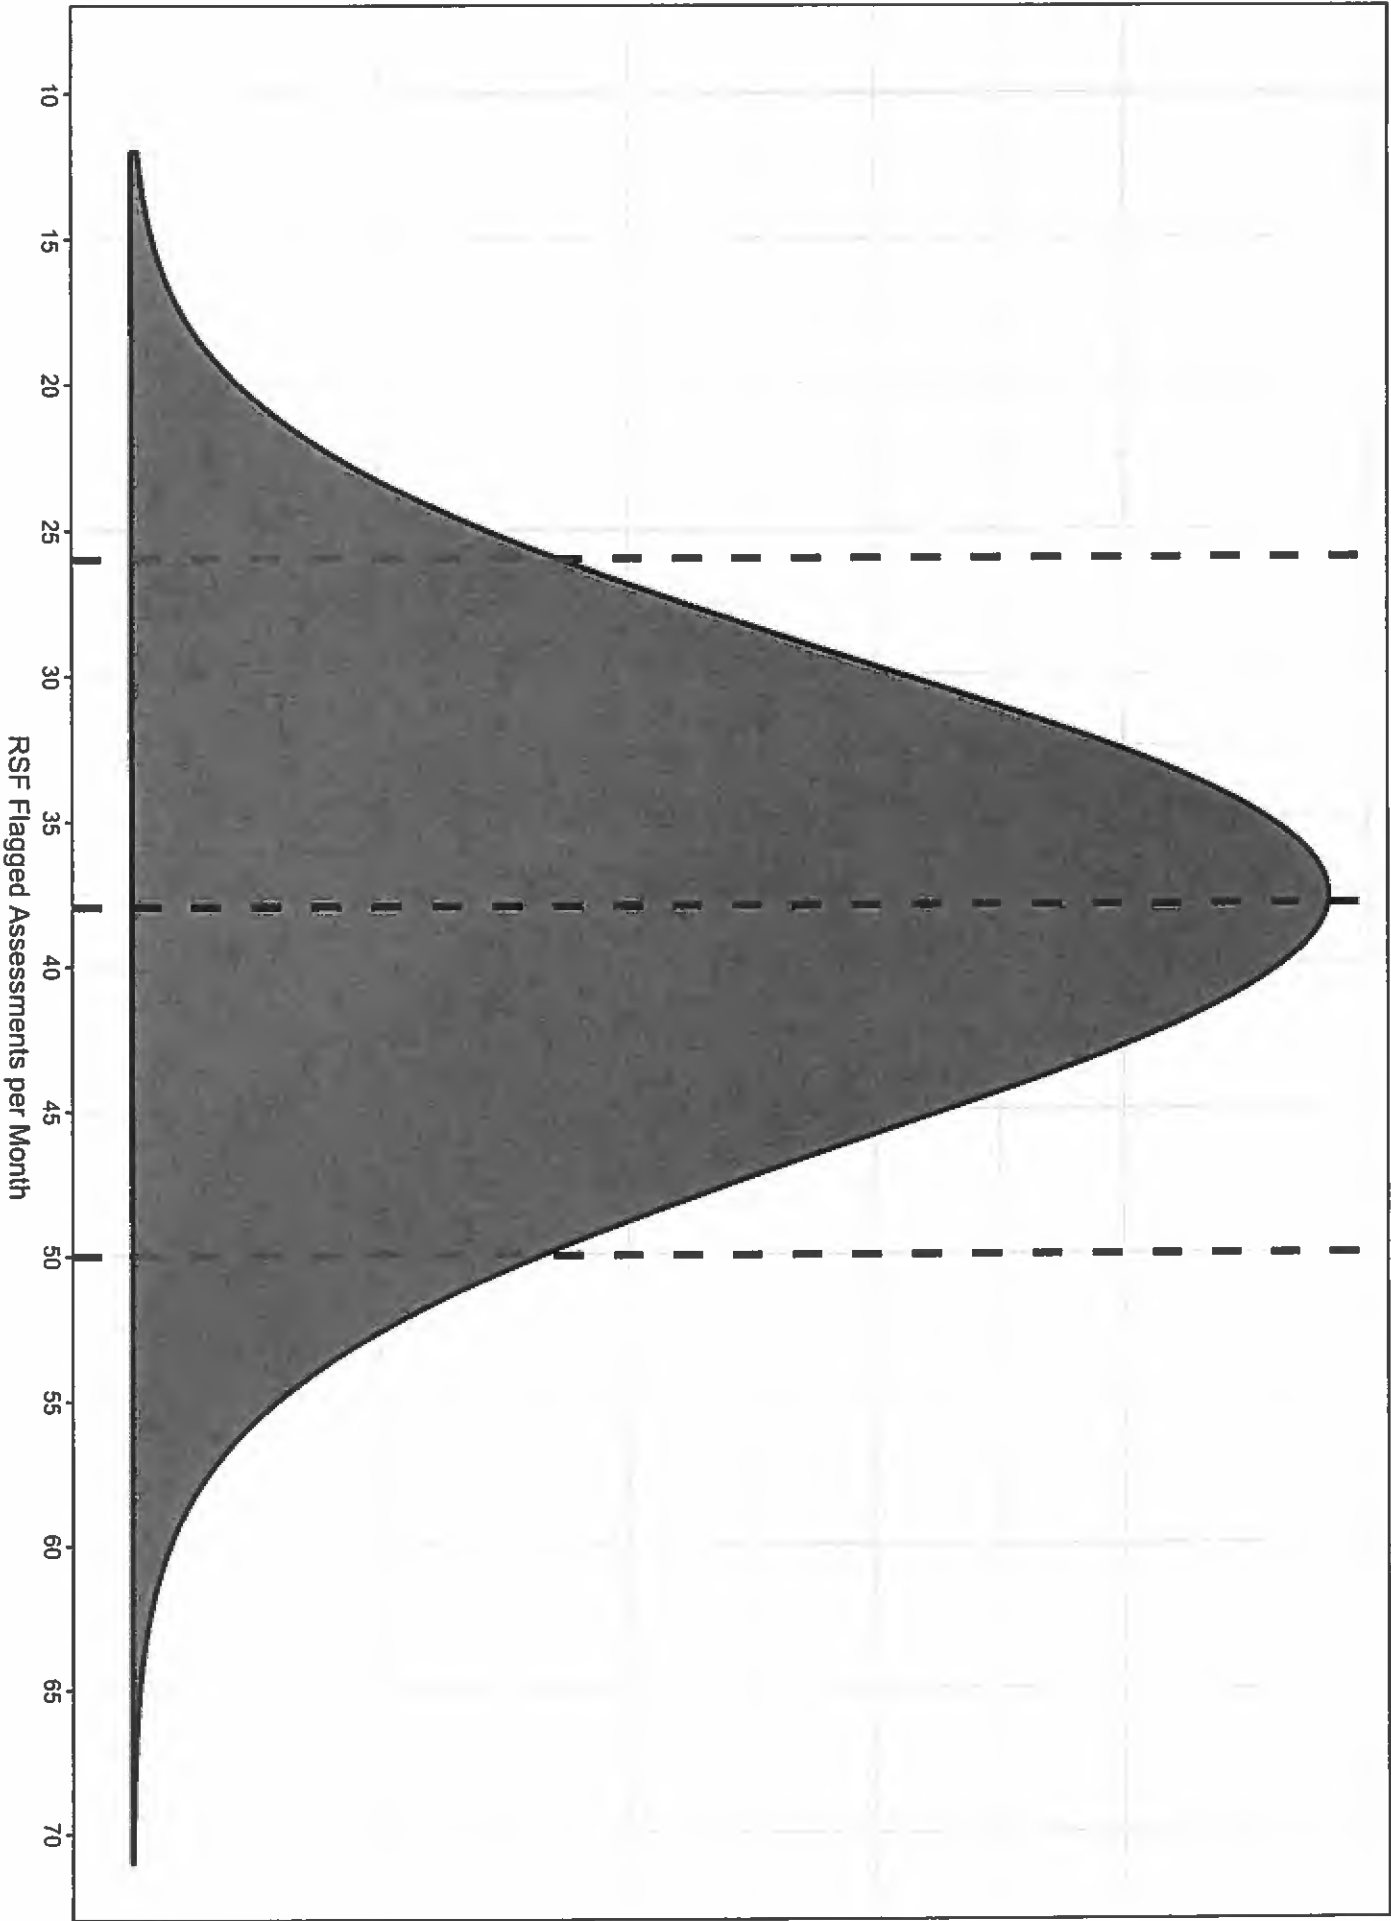

Theoretical Estimated Number of New Assessments Flagged by RSF per Weekday, By DO  
Based on 1 million simulations per DO

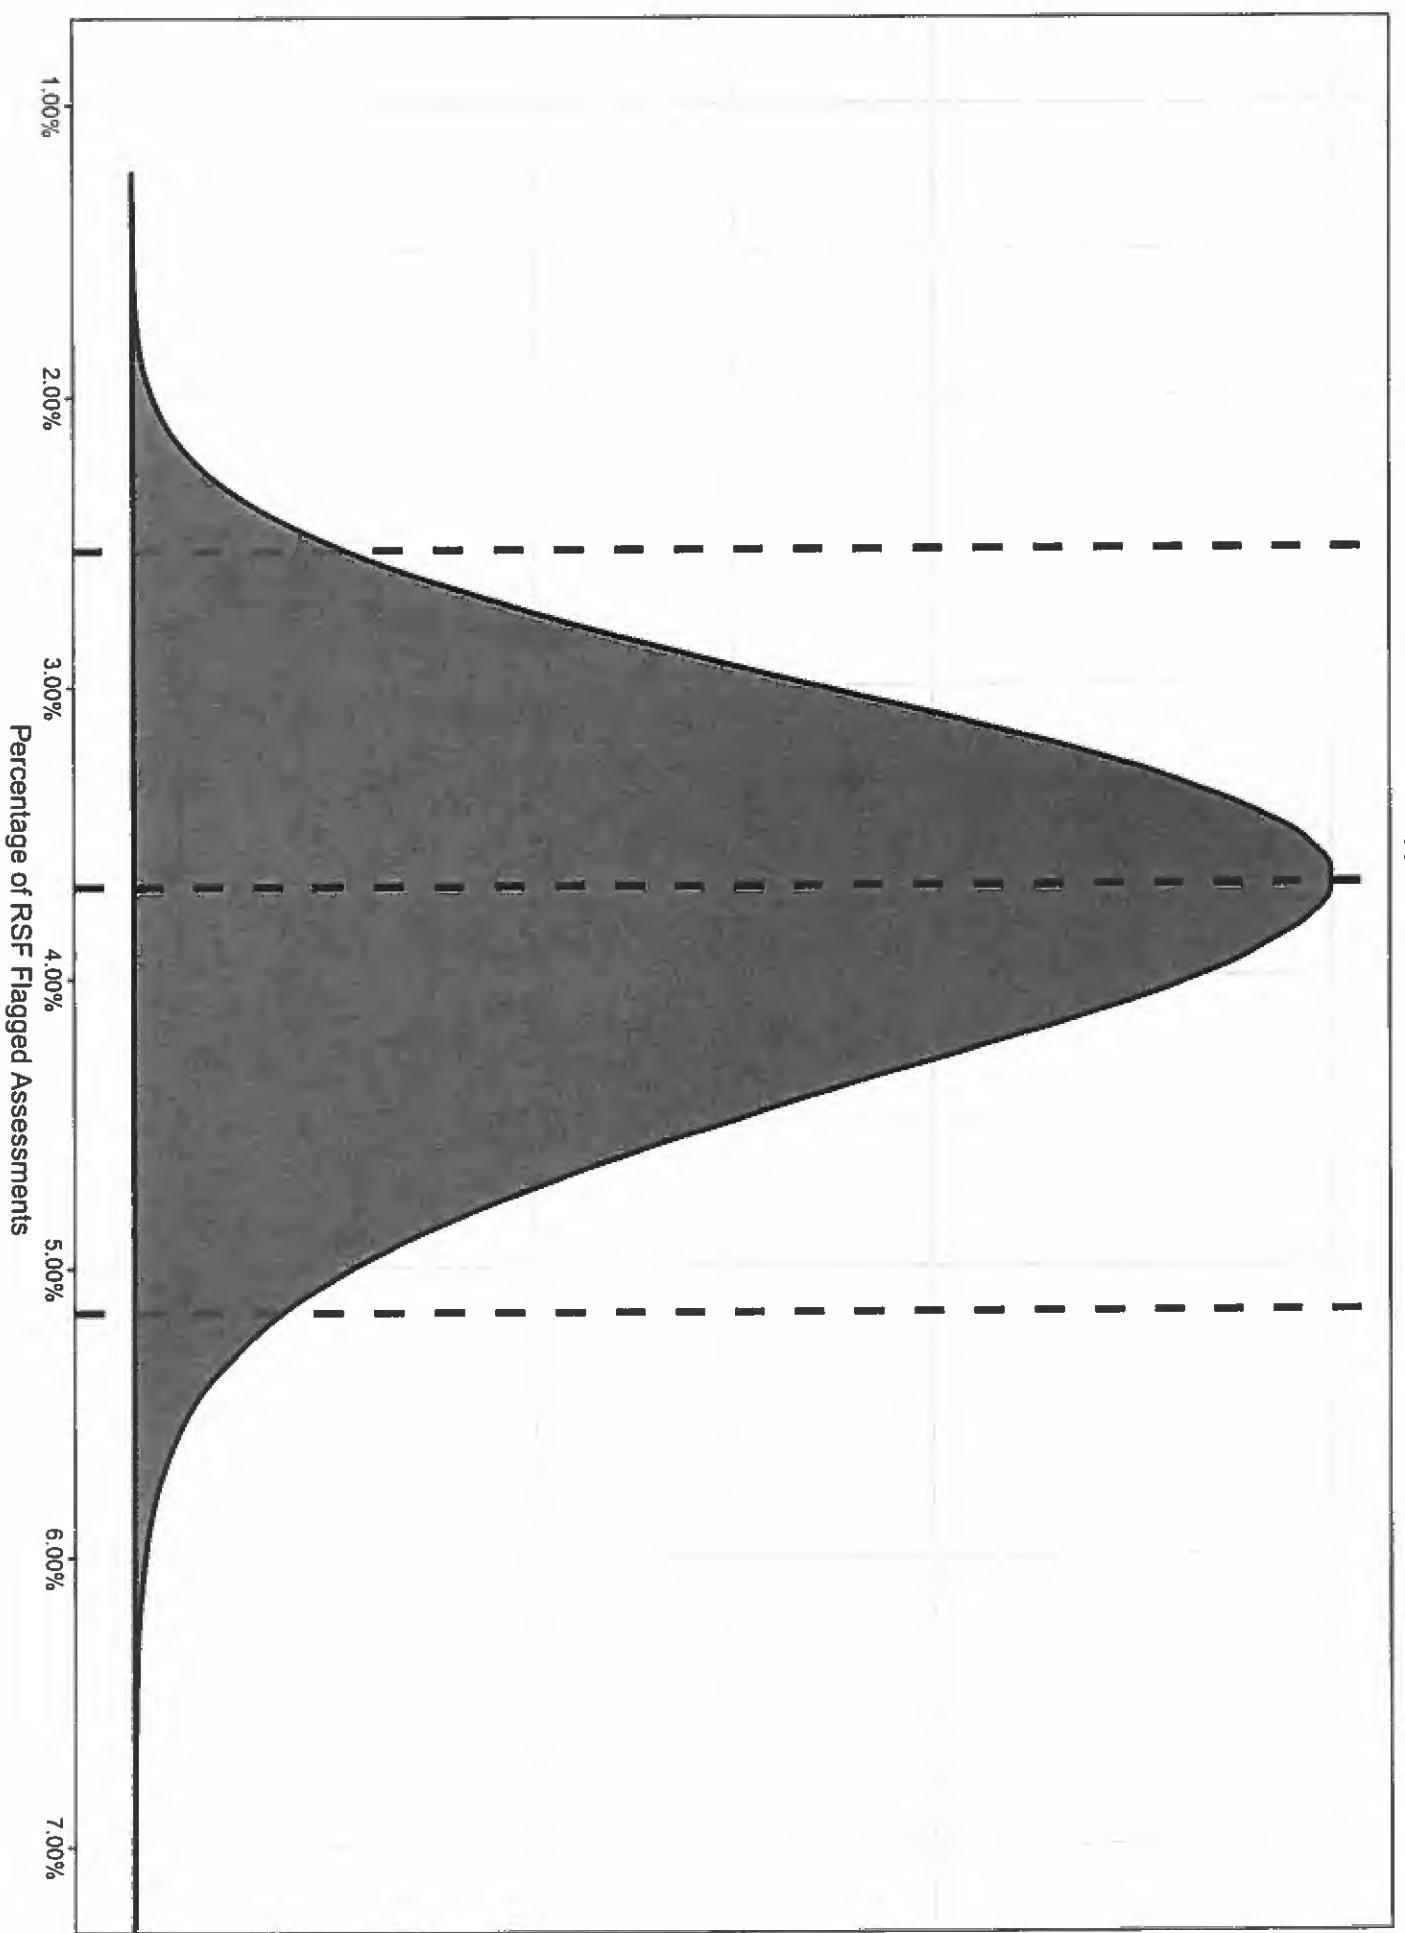

Theoretical Estimated Number of New Assessments Flagged by RSF per Month, Statewide  
Based on 1 million simulations, for 95% of months the number of flagged assessments will be between 26 and 50

Theoretical Estimated Percentage of Assessments Flagged as RSF out of Total per Month, Statewide  
Based on 1 million simulations, for 95% of months the number of flagged assessments will be between 2.53% and 5.15%

# Proportion of RSF Assigned Assessments Out of Total DO Assessments

Assessments Approved From Intake in January, 2019

Total RSFs Statewide = 53 | Total Assessments Statewide = 1092 | Statewide RSF Proportion = 4.85%
